

downstream in Las Garzas Creek. NMFS and the other resource agencies will then participate in a meeting with RSCP to discuss the implementation and effectiveness of the protocol, and will work cooperatively to adjust the protocol as may be necessary to protect the aquatic resources in Moores Lake and downstream in Las Garzas Creek. NMFS will keep the MPWMD updated and informed of the results our review and meetings with the other resource agencies and RSCP concerning the Moores Lake operational protocol.

If you have any questions, please contact Mr. John McKeon at (707) 575-6069.

Sincerely,

Patrick J. Rutten  
Northern California Supervisor  
Protected Resources Division
