

Report Card

Goal	Indicator	Condition	Trend	Confidence	Current Applicable Action Plan Priorities
Manage water quality and quantity to balance the needs of natural and human communities.	BMI Communities	78		High	7, 11
	Surface Water Chemistry	97		Low-Medium	
	Unimpaired Streamflow	68		Medium-High	1
Enhance native species populations with a focus on protecting threatened and endangered species.	Adult Steelhead Counts	12		Low	4, 7, 9, 10, 11
	Juvenile Steelhead Population Density	100		Low	4, 7, 9, 10, 11
	Bird Species Diversity	96		High	
Enhance and maintain watershed connectivity.	Aquatic Habitat Barrier Density	73		High	4, 10
	Percentage of Natural Land Cover	95		High	
	River-Floodplain Connectivity	40		Medium	6, 13
	Tributary Flow Patterns	100		Medium-High	1

Carmel Watershed Report Card 2022

Goals	Indicators	Condition	Confidence
Manage water quality and quantity to balance the needs of natural and human communities.	BMI Communities	78	High
	Surface Water Chemistry	97	Low-Medium
	Unimpaired Streamflow	68	Medium-High
Enhance native species populations with a focus on protecting threatened and endangered species.	Adult Steelhead Counts	12	Low
	Juvenile Steelhead Population Density	100	Low
	Bird Species Diversity	96	High
	Cal Red Legged Frog		
Enhance and maintain watershed connectivity.	Aquatic Habitat Barrier Density	73	High
	Percentage of Natural Land	95	High
	River-Floodplain Connectivity	57	Medium
	Tributary Flows	100	Low-Medium
Remove invasive species and restore the natural habitat	Aquatic Invasive Animal Species	54	Medium-High
	Bull Frogs		
	Invasive Vegetation		
Manage natural disturbances to meet ecosystem and human community needs.	Wildfire Frequency	29	Medium-High
	Historic and Predicted flooding
